DETAILED ACTION

Response to Amendment

1. Amendment filed March 5, 2007 has been entered.
2. Applicant's arguments filed March 5, 2007, have been fully considered but they are not found persuasive.
3. Claims 1 is examined. Claims 2-53 are withdrawn as non-elected invention.
4. Applicants argue that claims 7 and 8 should be examined together because claim 1 encompasses the SEQ ID NO:1-5 and 115-119 of claims 7 and 8. However, the election of SEQ ID NO:115 was for a restriction and not a species election. Thus, claim 1 which encompasses SEQ ID NO:115 is examined and claims 7 and 8 are withdrawn. As amended claim 8 does not include SEQ ID NO:115. Claim 7 is drawn to SEQ ID NO:1-5.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1646

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recite the term "VPAC2" which is an acronym which is ambiguous. It is suggested that full name spelled out.

Claim 1 recite the term "homology" which is ambiguous. It is suggested that the term "identity" be used if supported by the specification.

Claim 1 recite the Markush language terms but has multiple "and" which is confusing and ambiguous because the the polypeptide is narrow to SEQ ID NO:115 and also more generic to variants.

6. No claim is allowed.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
